

# WoT CG / WG Joint Meeting

TPAC 2025 - Kobe, Japan

# Agenda

- What does WoT CG do
- Updates from WoT CG
  - Meetups
  - Tutorial
- What works well, what does not
- Plugfest Organization
- Liaison

# What does WoT CG do?

The goal of Web of Things Community Group is to accelerate the community activities around the recommendations and notes published by the WoT Working Group and Interest Group.

We do not publish Specifications.

# What does WoT CG do?

Concretely:

- Organize meetups: Adopters of WoT come and present their solution.  
Companies, researchers, individuals
  - [Published on YouTube](#)
  - [Slides available on GitHub](#)

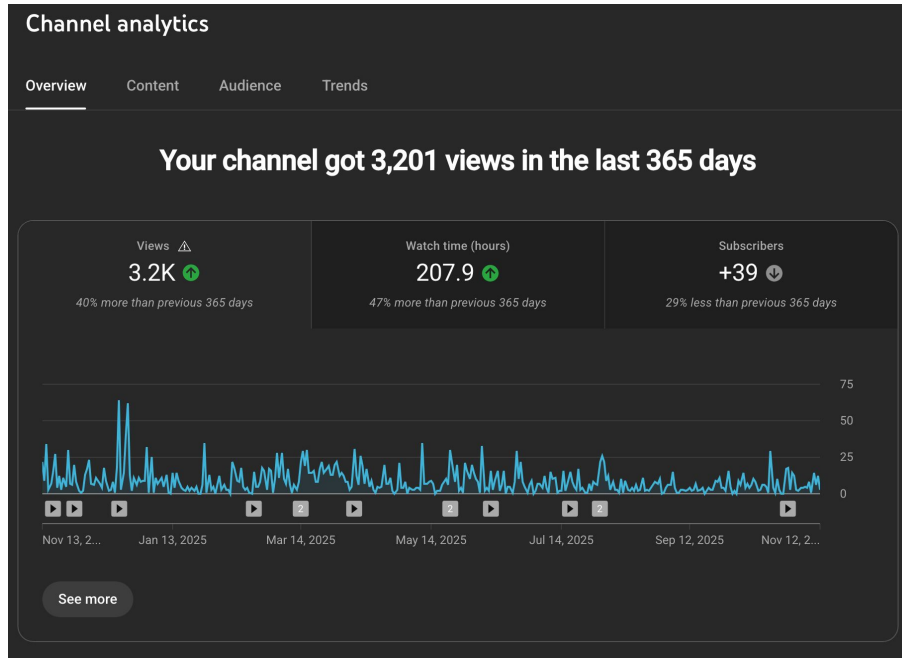

# Updates from WoT CG

<https://www.w3.org/2025/11/TPAC/demo-wot-cg-update.html>

# What works well, what does not

- Meetups: Typically 20+ attendees
- Tutorial: Some reviews, gets watched regularly

More statistics will be shown  
on the account page

# What works well, **what does not**

- Office hours: Worked ok in the beginning. Worst case, used as a chairs call
- Monthly calls: Very low numbers and not many people motivated to work on CG-level tasks.
  - Example: <https://github.com/w3c/wot-cg/discussions/186>
  - Maybe more concrete tasks are needed?
  - Can be reanimated with the “Adopters Page”
  - A small website will be create, maybe that can be a

# Plugfest Organization

With the IG ceasing to exist, yesterday there was a discussion to transfer plugfests to WoT CG.

How would we like to proceed?

# Liaison

We had a joint session in TPAC Sevilla and created a liaison proposal:

<https://github.com/w3c/wot-cg/pull/93>

Here is a newer and simpler one:

<https://github.com/w3c/wot-cg/pull/227>

The End :)
